

Sanita®
BIO SANDALS - SS23

SANITA BIO SANDALS

Quality materials, Danish design and comfort are the secrets to our success. Sanita Bio sandals are produced in Europe; handcrafted by dedicated highly skilled people.

Our 2023 Spring/Summer collection is photographed by Thomas Baunsgaard; presenting our clogs in a typical Nordic style summer cottage and beautiful surroundings of Handbjerg located in Venø Bay at the North Western area of Denmark.

This season selection of materials vary from genuine thick nubuck leather, suede, patent, metallic, vegan or recycled.
