Dear customer,

With reference to the conflict between Russia and Ukraine, sanctions have been imposed on Russian supplied products following EU regulation No. 833/2014 & 2022/2474.

From Tasso side we can confirm that we are not affected and that the supply of our cast iron bar products as well as our supply chain are compliant.

We are aware that the conflict is ongoing, and we will keep you updated regarding this matter in case our supply chain is affected.

In case of specific concerns or questions, we are at your service as always.
